

Fall '23 Mystery Quilt

Clue #4: Making Half-Square Triangles

Take the (36) 7.5" x 7.5" squares from Clue #2, put the pairs right sides together. Mark the diagonal line. Sew a scant $\frac{1}{4}$ " on each side of the diagonal line. Cut apart. Each pair will yield 2 Half Square Triangles. Press to the dark side. **DO NOT SQUARE THEM UP!!** I repeat **DO NOT SQUARE THEM UP!!**
